JULIO COTLER PROGRAMME - EDITION 2024

the Julio Cotler Programme was created in 2024 as part of the commemorative activities for OBREAL's 20th anniversary. This programme pays tribute to Professor Julio Cotler, highlighting his legacy and his commitment to higher education as a transformative tool to combat social inequalities.

Aimed at young academics and emerging professionals, the programme seeks to encourage the participation of unpublished voices in academia, promoting intellectual production on three key themes: Education, Social Inequality and Strengthening Democracy.

Summary of the Program and its Calls

In this first edition, the program included two calls:

- Peru Call, intended exclusively for participants from that country.
- Latin America Call, open to participants from other countries in the region and to OBREAL members.

Both calls received a wide response, consolidating the program as a platform for young researchers. As a result of the process, four outstanding articles were selected (two for each call), whose authors will receive a prize of 2,000 euros and the publication of their papers with open access.

Selection Process

The selection process was designed to ensure transparency and fairness. The following is a detail of the stages carried out:
