

EUROPEAN UNIVERSITIES ALLIANCE FOR SUSTAINABILITY:
RESPONSIBLE GROWTH, INCLUSIVE EDUCATION AND ENVIRONMENT

Co-funded by
the European Union

EU GREEN **unites nine European universities** to advance sustainability through education, research, and innovation. Rooted in our regions but globally connected, **we believe collaboration is key** to solving major societal challenges.

EU GREEN will build a **European hub** for education, research, and innovation in sustainability.

This hub will go beyond our universities, tackling **global challenges** while strengthening local communities.

By **uniting our strengths**, we are not just an alliance of universities—we are building a truly European University with a shared vision for a more **sustainable future**.
